BIOSEAR IS TOUGH ON BACTERIA

WE REDEFINE CLEAN

Your level of clean is only as good as the products you use. They may get you there, but they won't keep you there.

The BioSpear™ family of innovative solutions not only clean and sanitize, but they protect. Unlike typical cleaners, when our products dry, they continue working! BioSpear™ accomplishes that by leaving behind an invisible bacteriostatic barrier that inhibits the growth of microorganisms.

At BioSpear™, we are dedicated to helping protect you 24 hours a day. When things get dirty, We've Got You Covered.

BACTERIA 101

Your body has 10 times more bacterial cells than human cells.

Among the deadliest of resistant bacteria is MRSA, which killed 19,000 Americans in 2005 alone.

BACTERIAL INFECTIONS
kill more people every year than cancer

33,000

people die each year as a direct consequence of an infection due to bacteria resistant to antibiotics and that the burden of these infections is comparable to that of influenza, tuberculosis and HIV/AIDS combined.

75% of the burden of disease is due to healthcare-associated infections (HAIs)

Surfaces that teachers come in contact with have **10X MORE BACTERIA** per square inch than any other profession.

14,000

people die from *Clostridioides difficile* (C. diff) each year

48% of people never clean their computer mouse, keyboard or telephone.

Bacterial infections cost **\$20 BILLION** per year.

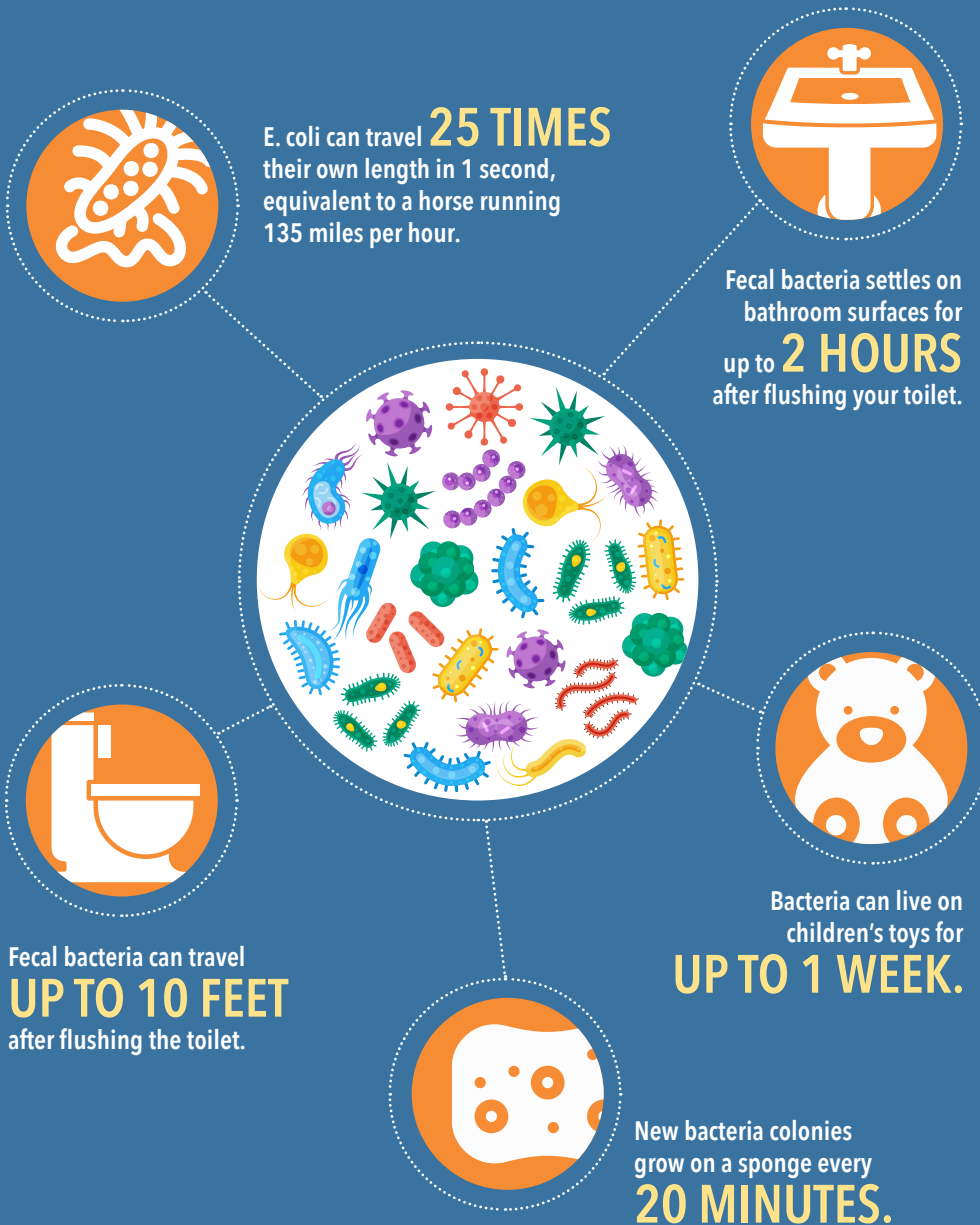

2 MILLION

people per year acquire serious antibiotic resistant infections

BACTERIA:

HOW DO THEY TRAVEL & GROW?

GIVING BACK IS GOOD BUSINESS

Giving back to the community that makes our business possible is the right thing to do. For that reason, BioSpear™ provides free product when possible, to volunteer organizations working in impoverished, at-risk countries and locations where disaster supplies are in dire need.

We were proud to contribute 80,000 wipes, and hundreds of gallons of our cleaning solution to Puerto Rico after Hurricane Maria. We also stepped in and donated hundreds of gallons of BioSpear™ liquid and persistent hand sanitizer to the Houston community, to help clean up after Hurricane Harvey ripped through the city.

Giving back is what businesses should do. You don't exist for us; we exist for you.

By purchasing our products, you are helping us help others.

Thousands of people die annually because of easily preventable infections, and billions of dollars are lost to employee illness. BioSpear™ is dedicated to help eliminate these statistics. Our entire staff is passionate about our company, because we all have been touched by the devastating effects of infection, and it has changed our focus in life. Whether it is killing and inhibiting bacteria in a sports locker room, helping to stop an outbreak in a daycare, or protecting a cancer patient while they endure chemotherapy, **We've Got You Covered.**

YOU are what drives us.

CLEAN. SANITIZE. PROTECT.

All BioSpear™ products are formulated to exacting standards for peak performance. Our products are thoroughly tested using the most advanced test methodology done to GLP, ASTM, EN and ISO Standards. All our testing is done by third party, internationally recognized laboratories, ensuring they hold up to our own rigorous standards.

When our products reach your hands, we guarantee they will be effective, efficient, and contain the highest standards of quality that you should expect from any product you purchase.

Whether our formulations have the BioSpear™ name on them, or your brand name on them, our mission of Clean, Sanitize and Protect is always PRIORITY #1.

INNOVATION AND PERFORMANCE

When a company combines innovation and performance, the result is success. At BioSpear™, we stay focused on that core value to deliver unique products that provide the best performance available. We pride ourselves on not only being uniquely, conveniently and ergonomically packaged, but being powerful. Our flagship product, BioSpear™ Sanitizing Bacteriostatic Wipes, illustrates our dedication to this focus. With a 99.99% kill, bacteriostatic action and bactericidal effectiveness, they are the best wipes on the market, and represent our dedication to delivering the best product on the market.

BioSpear™ puts the same pride of innovation and performance into our liquid products as well. Utilizing the powerful BioSpear™ formulation that is in our wipes, we will soon be delivering BioSpear™ Bacteriostatic Sanitizing Spray through a single touch Flarisol spray bottle that gives the same efficacy and a smooth, even coverage on any surface.

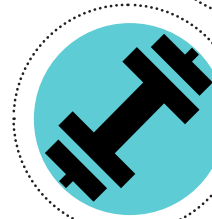

We go the extra mile to make sure all our products are innovative and outperform the competition. We proudly invite you to experience the innovation, performance and power of BioSpear™.

A DOLLAR BILL is home to 3,000 different types of bacteria.

The average **OFFICE DESK** has 400x more bacteria than a toilet.

FREE WEIGHTS in a gym have 362x more bacteria than a toilet seat.

BACTERIA: WHERE DO THEY LIVE?

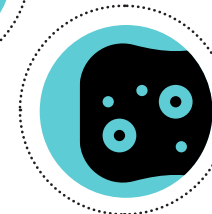

After 2 weeks of wear, **MOST CLOTHING** will have almost 13,000 colonies of bacteria growing on them.

20% of clean **COFFEE MUGS** contain fecal bacteria.

CREDIT CARDS harbour more than 3,000 types of bacteria.

70% OF SPONGES have over 1 billion bacteria per 100cm².

EASY. EFFECTIVE. SOLUTION.

All our products come in both commercial and consumer packaging and quantities, and are available for Private Label and Licensing. We can cover your needs with ease, whether it is a case of wipes or 275 gallons of spray. It doesn't matter if you are a nurse wiping down an exam room, a trainer cleaning a crossfit facility or a teacher using persistent hand sanitizer to protect your students; BioSpear™ has you covered.

We deploy our BioSpear™ bacteriostatic formulations in several unique ways. Our goal is to make protection as easy as possible. From our alcohol-free foaming persistent hand sanitizer, sanitizing spray, laundry protectant, sanitizing wipes, full body sedentary wipes and sports odor protectant, we've made it as easy and effective as possible to deploy the most advanced hygiene for the most challenging environments.

Kills 99.99%*

Most BioSpear™ products have Bacteriostatic Action, which inhibits the further growth of bacteria.
